SOCIAL CARE

Our care system has collapsed. Widespread rationing of services, low paid staff and poor standards of care have all caused the crisis. Everyone now accepts that health and social care need to be integrated. This could be achieved with the creation of a National Health and Care Service, funded through taxation and free at the point of use.

PENSIONS

The UK pension system is totally inadequate to deliver a decent standard of living in retirement to everyone. The state pension is among the worst in Europe, occupational pensions are in decline and the new state pension system will mean future generations have to work longer, pay more and get less. We need a living state pension that takes everyone out of poverty and gives them dignity in retirement.
